Executive Summary

PRINTECHS is pleased to submit this proposal to BAHEYA GROUP, Riyadh (here after referred as BAHEYA GROUP.) to provide redesign of the web portal and pos application developed located in Riyadh, Saudi Arabia

PRINTECHS pioneers in ERPNext, Retail Pro implementation, Application development and support in KSA region and adheres to global standard practices for all its customer engagements on both Implementation and support services. With the expertise in technologies, PRINTECHS is rightly positioned to service the needs of BAHEYA GROUP.

We at PRINTECHS believe, with the number of successful implementation across KSA and with the strong resource base and processes, are capable of delivering such services BAHEYA GROUP. PRINTECHS and its team with its expertise and experience in steering such an implementation, is rightly poised to add value to BAHEYA GROUP.

A. WEB PORTAL FOR LAPTOP/PC

Scope of the work include the User interface redesign and implementation based on the reference site as follows:

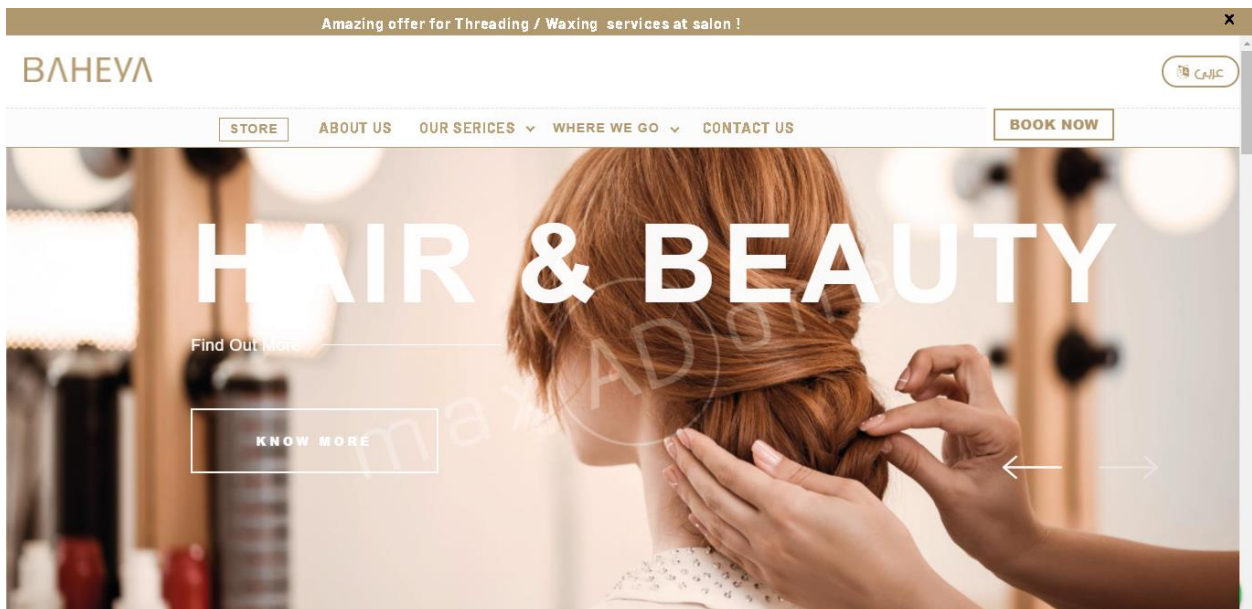

<https://www.fresha.com/a/maison-de-joelle-al-ain-al-ain-shakboot-bin-sultan-street-pna2mryd/booking?menu=true>

Scope of the functional requirement are same as the Web portal and POS application developed already.

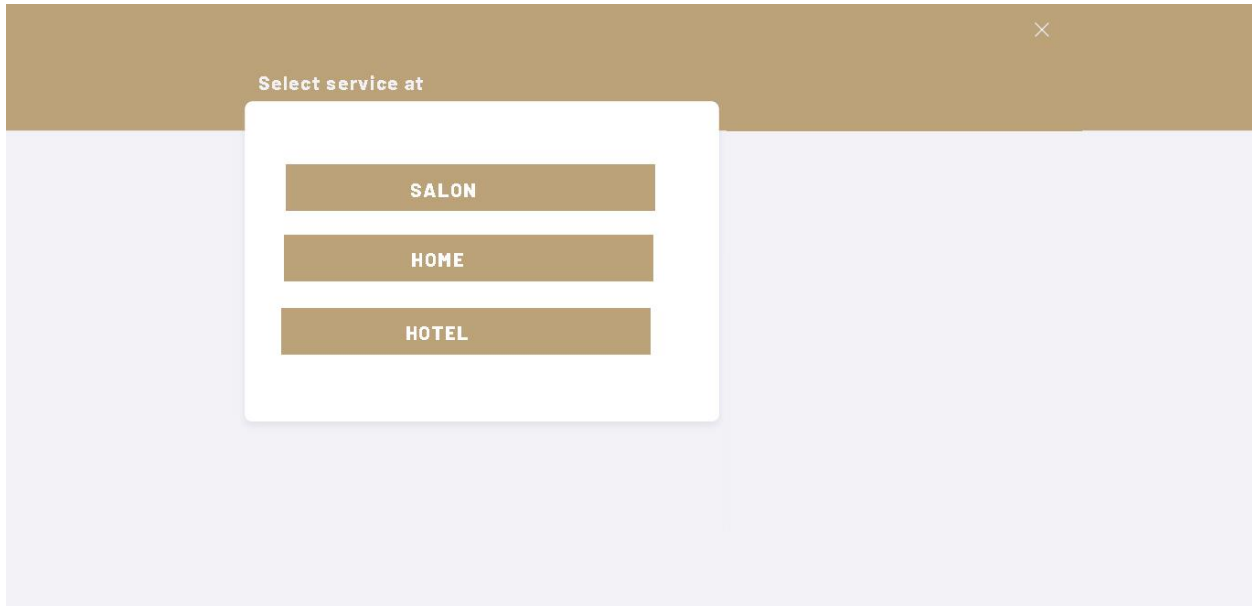

Following are the changes will be implemented as per the new reference.

1. Home Page

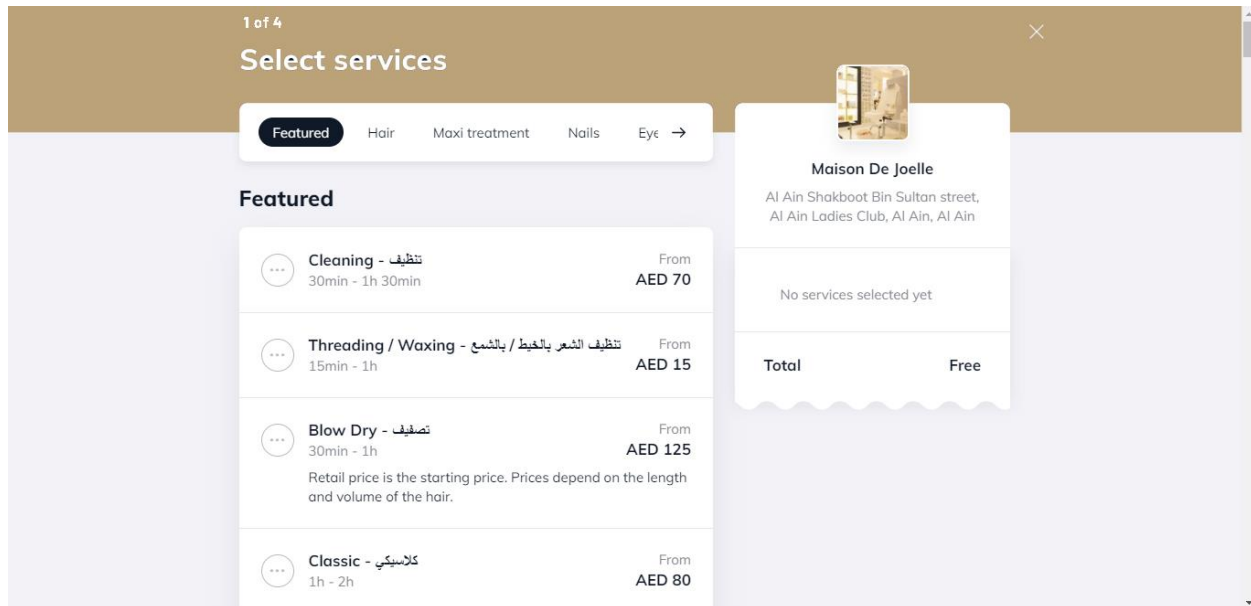

In home page removed Service category menu, since the layout changed. And added menu for other information pages

2. When customer click on Book now button, it will start wizard type dynamic page begin with choose service location such as Salon, Home or Hotel.
In case of selection by Home or Hotel, customer need to search and select their location from the Map

3. After select Service location, next page will list Main category as separate selection bar and navigate/list subcategory or service items as per the selection of main category
It will be implement dynamic levels as per the configuration.

4. Customer can add or remove service items and see the summary of the selections in separate area

B. MOBILE VIEW / KIOSK

New web portal will be completely responsive on Mobile.

C. POS APPLICATION

1. Need to incorporate the new design and process flow in the POS booking screen.
2. POS Application require additional option to add Products with barcode
3. It required option to manage additional tender like Cash, Gift Card etc.
4. Discount option need to implement in new design

The screenshot displays the POS application interface. At the top, there is a dark blue header with the 'POS' logo in blue and a close button (X) in the top right corner. Below the header, the main content area is divided into two columns. The left column is titled 'Payment method' and contains two radio button options: 'Pay in person' (unselected) and 'Add new card' (selected). Below these options, a message states: 'You won't be charged now, payment will be collected in store after your appointment'. There are two input fields: 'Card holder full name' with the placeholder 'Add card holder full name' and 'Card number' with the placeholder 'Credit or debit card number'. The right column is titled 'SCAN ITEM' and features a barcode scanner icon. Below the scanner, the date and time are shown as '8 Jun 2021 at 4:45pm' with a note '30min duration, ends at 5:15pm'. The item details section lists 'Cleaning - تنظيف' for AED 70, '30min Manicure - تنظيف 30 دقيقة with Lilian' for AED 70, and 'Taxes' for AED 3.50. The total amount is displayed as 'Total AED 73.50'. At the bottom left, it says '1 service AED 73.50'. A dark blue 'Confirm' button is located at the bottom right.
